SYMBOLS

	The CE marking is applied to devices that comply with the regulations in force within the European Community and which govern the production and placing on the market of that device.		Separate disposal of electrical and electronic device.
	Device that requires only the use of self-protected metal halide lamps with tungsten filament or halogen lamps.		Replace damaged protective shields.
	Class II, device provided with a double isolation which protect against the electric shocks.		Device not suitable for direct mounting on normally inflammable surfaces (suitable only for mounting on not-flammable surfaces).
	Device provided with earthing system for a correct operation and protection against the electric shocks.		Device not suitable for being covered by technical insulating material.
	Use only PAR bulbs		

IP DEGREES

IP20	Ordinary lumier	IPX1	Protected against dripping
IP3X	Protected from objects of diameter larger than 2,5mm	IPX3	Protected against rain
IP4X	Protected from objects of diameter larger than 1mm	IPX4	Protected against splashing water
IP5X	Protected against dust	IPX5	Protected against water jets
IP6X	Complately protected agaist dust	IPX6	Protected against powerful water jets
		IPX7	Protected against water immersion
		IPX8	Protected against water submersion (the IPX8 value must be followed by the maximum depth of immersion)

All our products were tested in the Bassani laboratory in Brescia
